

Admission Brochure for Exchange Student

Beijing University of Posts and Telecommunications

I. Brief Introduction of BUPT

Beijing University of Posts and Telecommunications (BUPT) is a university directly under the Ministry of Education which is established with joint efforts by the Ministry of Industry and information Technology. BUPT is one of the first key universities of "project 211", and one of the key universities of "Project 985 Innovation Platform for Outstanding Disciplines". It is a university featuring information technology with engineering subjects playing the dominant role, while engineering, management, arts and science are coordinately developed. BUPT is an important training base for China's information technology professionals. The Information and Telecommunication Engineering subject in BUPT ranks in the 1st place in China in terms of the comprehensive academic strength.

There are currently thirteen academic units in BUPT: School of Information and Communication Engineering, School of Electronic Engineering, School of Computer Science, School of Automation, School of Software Engineering, School of Economics and Management, School of Humanities, School of Science, International School, School of Continuing

Education and so on.(In key discipline development, there are national key disciplines: 2 first level subject (electronic science and technology, and information and communication engineering), 7 Beijing key disciplines and 8 ministry level key disciplines . Since 2007 the school has lunched characteristic specially construction work and received approval of 9 national characteristic professional. Besides, there are 4 national key laboratory (including 2 national engineering laboratories), the ministry of education (2 "111 innovation engineering base").9 key laboratories at all kinds of ministry levels .And BUPT has 9 academicians, more than 650 professors and deputy professors. Our university has maintained 100% graduate student employment rate for many years in a row, with undergraduates maintaining a rate of over 99%.

The school offers 36 undergraduate majors, 42 master's programs, five types of professional degrees, 15 doctoral professional education curriculum, and established five disciplines postdoctoral research station. Including international students and all degrees, BUPT has a total of roughly 22,000 full-time students .Officially registered part-time students total roughly 30,000.

BUPT is attaching great importance to the international cooperation and exchanges, and it has established the academic partnerships with 40 plus countries such as, America, UK, Germany, Sweden, France as well as 70 plus universities in Hong Kong, Macau and Tai Wan. Also, BUPT has tied with many world-renowned corporations in the field of telecommunications,

which has fostered a better atmosphere for the students' modern and international vision.

II. Length of Study

Exchange students can either apply for one semester or two semesters. One academic year includes a spring semester and autumn semester.

III. Specialty Catalog of Recruiting Students

Chinese-taught Programs

Undergraduate Programs (for Bachelor Degree)

School

- 1、 School of Information and Communication Engineering
- 2、 School of Information and Communication Engineering
- 3、 School of Information and Communication Engineering
- 4、 School of Electronic Engineering
- 5、 School of Electronic Engineering
- 6、 Electronic Information Science and Technology
- 7、 School of Computer Science and Technology
- 8、 School of Computer Science and Technology
- 9、 School of Computer Science and Technology
- 10、 School of Computer Science and Technology
- 11、 Automation School
- 12、 Automation School
- 13、 Automation School

Major

Electronic Information Engineering
Communication Engineering
Information Engineering
Electronic Science and Technology
Electronic Information Science and Technology
Optical Information Science and Technology
Computer Science and Technology
Network Engineering
Information Security
Intelligent Science and Technology
Mechanical Engineering and Automation
Detection Technology and Instrument
Automation

- 14、 Automation School
- 15、 School of Science
- 16、 School of Science
- 17、 School of Science
- 18、 School of Software Engineering
- 19、 International School
- 20、 International School
- 21、 International School
- 22、 School of Economics and Management
- 23、 School of Economics and Management
- 24、 School of Economics and Management
- 25、 School of Economics and Management
- 26、 School of Economics and Management
- 27、 School of Economics and Management
- 28、 School of Economics and Management
- 29、 School of Economics and Management
- 30、 School of Humanities
- 31、 School of Humanities
- 32、 School of Humanities
- 33、 School of Digital Media Design
- 34、 School of Digital Media Design
- 35、 School of Digital Media Design
- 36、 School of Public Administration

**Master's Degree and General Scholar Study Programs
School**

- 1、 School of Information And Communication Engineering
- 2、 School of Electronic Engineering
- 3、 Automation School

- Logistics Engineering
- Mathematics and Applied Mathematics
- Information and Computing Science
- Applied Physics
- Software Engineering
- Telecommunications Engineering with Management
- Internet of Things
- E-Commerce Engineering with Law
- Economics
- International Economics and Trade
- Engineering Management
- Information Management and Information System
- Business Administration
- Marketing
- Accounting
- E-commerce
- Laws
- English Language and Literature
- Japanese Language and Literature
- Digital Media Art
- Digital Media Technology
- Industrial Design
- Public Administration

Major

- Communication and Information System
- Electronic Science and Technology
- Mechanical Electronic Engineering

4、Automation School	Control Theory and Control Engineering
5、School of Economics and Management	Management Science and Engineering
6、School of Economics and Management	Business Administration
7、School of Economics and Management	Applied Economics(focuses include the following: International Trade or Production Economics)
8、School of Computer Science and Technology	Computer Science and Technology
9、School of Science	Applied Mathematics
10、School of Science	Theoretical Physics
11、School of Electronic Engineering	Biomedical Engineering
12、School of Software Engineering	Software Engineering
13、School of Digital Media Design	Designing Art
14、School of Network Education College	Educational Technology
15、School of Humanities	Laws
16、School of Humanities	Foreign Language and Applied Linguistics
17、School of Digital Media Design	Journalism and Communication
18、School of Public Administration	Public Administration

Doctoral Degree and Senior Scholar Study Programs

School

- 1、School of Information And Communication Engineering
- 2、School of Electronic Engineering
- 3、School of Electronic Engineering
- 4、School of Computer Science and Technology
- 5、School of Economics and Management
- 6、Automation School

Major

- Communication and Information System
- Electronic Science and Technology
- Optical Engineering
- Computer Science and Technology
- Management Science and Engineering
- Mechanical Electronics Engineering

English-taught Programs

Master's Degree and General Scholar Study Programs

Software Engineering (2 years)

School

- 1、 School of Software Engineering

Doctoral Degree and Senior Scholar Study Programs

School

- 1、 School of Information and Communication Engineering
- 2、 School of Electronic Engineering
- 3、 School of Electronic Engineering
- 4、 School of Computer Science and Technology
- 5、 School of Economics and Management
- 6、 School of Software Engineering

Major

Software Engineering ※ (2 years)

Major

Communication and Information System※

Electromagnetic Field and Microwave Technology※

Optical Engineering※

Computer Science and Technology※

Management Science and Engineering※

Software Engineering ※

IV. Fees

1、 Tuition fee is free of charge for the exchange students.

2、 Accommodation and Living Facilities

There are two dormitories for the Exchange Students:

	Single bedroom	Twin room
No.1 International Dorm	84RMB Yuan(about 10US dollars) /room *day(more than 3 months)	42RMB Yuan(about 5US dollars) /bed* day (more than 3 months)
	100RMB Yuan(about 12US dollars) /room* day(less than 3 months)	50RMB Yuan(about 6US dollars) /bed* day (less than 3 months)
No.2 International Dorm	90RMB Yuan(about 11US dollars) /room* day	45RMB Yuan(about 5.5US dollars) /bed* day

Ps. 24hours hot water, public kitchen and WiFi is available in the dorm.

3、 Insurance

Exchange students are required to have insurance to cover the full duration of study.

V. International Chinese Language Training Center

The International Chinese Training Center of BUPT was established in 1986. It is an important view window of BUPT to communicate with the outside world and it is the only Chinese-teaching organization of our university, belonging to the School of Humanities in BUPT.

Over the past 22 years, the International Chinese Training Center has trained students from more than 40 countries all over five continents, like US, Canada, Cuba, Japan, South Korea, Thailand, Vietnam, Mongolia, Pakistan, India, Iran, UK, French, Germany, Austria, Holland, Swiss, Denmark, Finland, Italy, Russia, Kazakhstan, Saudi Arabia, Congo, and Congo (Kinshasa). It has also trained large amounts of qualified and excellent language learners for the undergraduate and graduate majors in BUPT and other universities in Beijing. At the same time, the International Chinese Training Center of BUPT has trained many brilliant employees for companies both at home and abroad, working in various areas such as China Telecommunications, trade, cultural communications and education.

We have gained much teaching experience through so many years of teaching practice. We have cultivated an excellent teaching team consists of young and mid-aged teachers who have high educational backgrounds and have therefore formed our own advantageous teaching features. Meanwhile, long-term relationships with many universities and study-abroad

service-providing organizations have been built up.

At present, International Chinese Training Center has played a role as the base of overseas Confucius Institutes, been obligated to not only providing teaching technical support and cultivating versatile students, but also storing and delivering personnel qualified for teaching Chinese as a foreign language.

We are looking forward to every student's discovering the beauty of Chinese culture, appreciating the charm of gorgeous Beijing, experiencing the pleasure of Chinese history, and exploring the path of international understanding through our delicate arrangements, high-quality teaching, and considerate services.

Note: For students joining the exchange program, the study in International Chinese Training Centre is also free of charge.
